WE CARE ABOUT ENVIRONMENT

Young Plants

As the Hydrangea specialist, our innovative approach allows us to provide you with high quality young plants, at all growth stages.

We grow these cuttings in a modern nursery in Portugal. After careful checks, the cuttings are either transported to the nurseries in the Netherlands, or further cultivated to half-grown plants in Portugal.

NL **Door onze innovatieve aanpak kunnen wij u als dé Hydreangea specialist voorzien van hoge kwaliteit Young Plants in alle stadia.**

Deze stekken telen wij op een moderne kwekerij in Portugal. Na zorgvuldige controles gaat het stekmateriaal op transport naar de kwekerijen in Nederland of wordt het in Portugal verder opgekweekt tot halfwas planten.
